

DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING

18ISL67 – File Structures Lab with Mini project

Title of the mini project

Student Name

USN

Guide

Name of the faculty

Designation

Dept. of ISE, RVITM

Index

Go, change the world

- Objective
- Abstract
- Introduction
- File Structures Technologies Used
- Implementation
- Results
- Conclusion
- Bibliography / References

Objectives

- **Only bullet points**

Abstract

Introduction

- Introduction about topic

Introduction

- Statement of Problem

File Structures Technologies Used

Present all File Structures related technologies with diagram

File Structures Technologies Used

Present all File Structures related technologies with diagram

File Structures Technologies Used

Present all File Structures related technologies with diagram

Implementation

Implementation tools and design

Implementation

Implementation tools and design

Implementation

Implementation tools and design

Results

bullet points

Conclusion

Conclude your application with file structures concepts

Bibliography
